

Heavy Duty 12tonne Steerable Skate

Product code: SKSTSK12HD-COMplete

A heavy duty steerable skate for moving very heavy machinery and equipment loads of up to 12tonne (12,000kg) on a regular basis. An ideal, very robust unit for the professional user due to the tough powder-coating, heavy-gauge steel frame and high quality components.

- Helps to protect the floor via the large diameter rollers
- Load slippage risk is reduced via the rubber non-slip pad
- Easy to steer around tight bends due to the high quality thrust bearing under the platform
- Easier to manoeuvre due to the one metre draw bar
- Combine with the [HD 12tonne adjustable skate](#) to double the total load rating to 24tonne
- Other load ratings available

Please note: The finish colour supplied may differ from that illustrated.

Rotating platform diameter	170mm
Number of rollers	16
Handle bar length inc eye	1080mm
Roller size Diameter x W	85mm x 85mm
Weight	73Kg
Height	110mm
Width	600mm
Length	990mm
Load capacity	12000Kg
Skate/jack type	Machine skates
