

## Nylon Plate Swivel Castor 150mm 1000kg Load

**Product code: JAZHSK150NYBJ**

Side winding jacking unit with maximum lift of 200mm fitted with a Fabricated swivel castor with a top plate fixing fitted with a white nylon wheel with ball bearings. Wheel diameter 150mm, tread width 50mm, maximum Load for the complete unit is capacity 1000kg. Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units. for other dimensions please refer to the BIL catalogue or request a drawing. When jacked up to the height please be aware of any obstacles as a sudden shock could result in the inner square tube bending around the outer tube. **DO NOT OVERWIND** Handle excessively more than what is needed as this will cause the pin in the gearbox to shear. (This is a safety precaution against over loading the unit)
