

Nylon Plate Swivel Castor Brake Locking Castor 100mm 200kg Load

Product code: JAB100NYSWB

Open screw thread jacking castor with side fitting nuts with 160mm lift fitted with a 100mm white zinc plated swivel pressed steel castor with a white nylon wheel with a plain bore and total lock brake with a load capacity of 200kg Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units.1 extra safety point is when jacked up please beware of any obstacles as a sudden shock could result in bending the thread but more likely the castor will tear away from the screw thread also this could also happen if the user forgets to release the brake. Please refer to the BIL catalogue or request a drawing
