

Polyurethane Nylon Plate Swivel Castor Brake Locking Castor 200mm 250kg Load

Product code: JAZ200NPSWB

Zinc plated box jacking unit with side fitting plate and a 75mm lift fitted with a 200mm red polyurethane tyred nylon centred plain bore wheel wheel and a total lock brake with a load capacity of 200kg Please note Jacking castors are rated on a different principal to other castors and we recommend the total lifted load is divided over just 2 jacking units. 1 extra safety point is when jacked up please beware of any obstacles as a sudden shock could result in the inner square tube bending around the outer tube and this can also happen if the user forgets to take the brake off.
